

**Au Repos du Bouleau offers sustainable tourism thinking of our future and reflecting our ecosensitive attitude by:**

- Recycling and composting
- Using low energy apparatuses and light bulbs
- Using biodegradable soap for laundry with cold water
- Offering recycled toilet paper, paper handkerchiefs and recycled paper towels
- Reducing at 99% the use of chemical cleansing products with the use of:
  - Multi-use and window magical rag
  - Water vapour mop

**To call upon the environmental conscience of our customers we encourage them to:**

- Reduce bedclothes and towel cleaning (during an extended stay) to reduce the quantity of cleaning products while economizing water and energy
- Reduce the use of the heating and/or air-conditioner during their absence
- Recycle and compost with our well identified receptacles

**You thus take part to decrease considerably the quantity of water rejected in the sewers and the energy used for cleaning.**
